

# Meet Teresa

Teresa Zito is Canvas' certified eyelash extension specialist. Teresa received her training through NovaLash in Charlotte, NC and has been performing lash services regularly since 2011. Quality is key to Teresa- she uses NovaLash adhesive, Faux Mink lashes, and wears gloves with every application. Teresa obtained her cosmetology license in 2010 and has had successful careers with a full clientele in both North Carolina and Florida before relocating to Charleston.

# Maintenance

## How often do I need to get them filled?

Every 2 weeks: 45-60 minutes estimated time.  
(Lash addicts, those that want extreme fullness at all times, triathletes, swimmers, etc.)

Every 3 weeks: 60-90 minutes estimated time.  
(This is the most ideal time frame. Most that choose 3 weeks will notice a few lashes missing but lashes will still look great)

Every 4 weeks: 75-90+ minutes estimated time.  
(Lash extensions still remain but will be getting sparse in areas depending on client care)

Over 4 weeks: 90+ minutes minimum estimated time. Girl get in here and get your lashes on before you need a full set!

\*These are guidelines...NOT set in stone by any means. I have many clients go 6 weeks. We just need to determine your perfect prescription.

# Canvas Eyelash Extensions

What to know about eyelash extensions at Canvas

## FAQ

---

### **Are eyelash extensions safe?**

-Yes! Even for contact wearers when applied properly by an experienced professional. Proper length and width of extensions are always customized to each individual lash. Your natural lash will not be damaged as NovaLash brand adhesive is ophthalmologist developed and tested.

### **How long do they last?**

- 6-8 weeks is the normal length of time that eyelash extensions last and look fabulous depending on lash growth. You will need to keep them filled by returning to the salon every 2-4 weeks. Your natural lashes shed every 30 days on average.

### **Are lashes “Good” for me?**

-Yes! Our lashes can actually improve your own natural lashes. It eliminates the need to apply and remove mascara, sleep in mascara, and clients are generally more careful and gentle with their lashes once they have extensions. If you are a puller, picker, or rubber- lashes are still for you and can help to improve those bad habits.

### **Are lashes for everyone?**

-NO. People can have reactions to the adhesive or even the lash pads used during the service. Most people know if they are allergic to adhesive.

### **What mascara can I use?**

-NovaLash has glycol free mascara available in our retail kit safe for your lashes!

## Application Process

---

The process is simple; the payoff surreal. From start to finish, it takes about 2 hours. Be sure to let family, friends, work, or doggy/child care know that you will not be available as your eyes will be closed and you will be in full relaxation mode. Please come in with a clean eye- no mascara. It's best not to have caffeine so that you can allow yourself the most enjoyable experience. The procedure is completely painless.

### **What to Expect**

First, your lower lashes will be protected and constrained by a soothing gel eye pad that will add softness and moisture to your sensitive eye area.

Next, a synthetic fiber lash will be individually applied to your natural lashes by dipping them one at a time into a non-irritating bond agent.

Last, your lashes will be misted with a setting spray that helps them to quickly dry. After a few seconds they will be softly separated and fluffed with a dry mascara wand.

### **Aftercare**

Avoid wetting your lashes for 24 hours (sweat, rain, makeup remover) to allow the glue to set. After day one, continue with your normal routine.

Lashes can be cleaned with pomegranate pads which are included in the NovaLash aftercare kit. This will also help keep them looking fresh and supple.

Glycol, which is found in many eye care products, breaks down the NovaLash adhesive and should be avoided.

Try using a silk pillowcase for the ultimate lash pampering and avoid harsh rubbing or tugging.

## Pricing

---
